Dear all Primary Care Physicians (PCP),

With continued efforts on improving our HEDIS Measures and RAF Scores, please take time to complete the free CME/CE available on the website below. It is extremely important for us to work diligently and effectively on improving our quality measures and documentation for HEDIS and HCC coding for the reflected STAR and Risk Adjustment Factor scores. Such measures will greatly impact not only our future revenue, but also the ability to contract further with various health plans and continue to effectively enroll additional patients.

Please refer to the directions below to access the free training.

1. Access the website by going to: <http://www.pri-med.com/PMO/Home.aspx>
2. Click on "LEARNING LAB"

3. Click on the desired therapeutic area training (e.g. cardiovascular disease/diabetes) to access the videos

4. After finishing the videos, please remember to return to the activity page to claim credit.

Thank you and please do not hesitate to call or email if there are any further questions.
