Dear all Primary Care Physicians (PCP),

Please see the link below for further resources on Ebola from the American Medical Association. There was a first confirmed U.S. case of Ebola on September 30, 2014, and we must take continued precautions and measures to help prevent the further spread of this disease.

The website will continually be updated by the American Medical Association, so please feel free to refer back to the website for various topics such as:

- Signs/symptoms of Ebola
- How to prevent Ebola
- Ebola transmission
- Ebola & pets

The link is: <http://www.ama-assn.org/ama/pub/physician-resources/public-health/ebola-resource-center.page>

Thank you,

**Provider Network Operations**
