---

Dear all Primary Care Physicians (PCP),

With diabetes becoming a more prevalent and serious issue in healthcare, please see the free training resources for diabetes, provided by the National Diabetes Education Program. The link for the website is as follows:

<http://ndep.nih.gov/hcp-businesses-and-schools/practice-transformation/>

The website provides great insight into various topics such as Team-based care, patient-centered interactions, patient care coordination, etc.

Please use this as a tool to provide further insight and education of Diabetes for yourself and your staff.

Thank you and please let me know if you have any further questions,

**Provider Network Operations**
